

Brochure 2021

ABOUT URBAN ILLUSTRATION

Urban Illustration, proudly designed, printed, and manufactured in the UK.

We are a brand that showcases places- using the urban landscape as our inspiration. Our geometric design style displays buildings, architecture, and landmarks that are unique to that area.

The bright colours and bold geometric designs show off each place across a range of textile products.

Our entire collection has been designed for the sleek and stylish customer - display in your retail store and offer them a product they will love.

REIMAGINE YOUR CITY

If you would like to collaborate on a design, we have various customisation options available.

From adding your own landmarks and buildings, through to choosing your own colour palette- our creative design team can answer any questions you may have.

COLOURWAYS

The Urban Illustration colourway system is used when you opt for an all over print. The colourways are made up of six contrasting colours, making each one unique. From the vibrant and vivid, to the fashion forward. Each colourway offers an eye-catching vision of your area.

Simply choose one of our ready-made colourways or to personalise your product further, create your own colour palette.
